CHECK OUT THE LATEST TREND OF TYPOGRAPHY ON FURNITURE OFFERED BY ONE & ONLY-LEGENDARY FURNITURE.

While furniture in leather and wood may have their own charm, emerging trends call for adopting some innovative assortments in terms of design. Homeowners are now more experimental and ready to incorporate exciting new accents and themes for their home. Considering this transformation, Gurgaon-based furniture store **One & Only-Legendary Furniture** has launched their latest 'typographic' collection. The decorative appeal of letters and numerals on furniture pieces make the products look modern, bold, interesting and playful. This typographic trend adds interest, character, beauty and can easily lend an element of vigour to any furniture piece.

From newspaper prints in rich fabrics for offices to alphabets and numbers in metallic colours for a casual setting and customized text imprints on dining chairs in homes, the brand has a wide range to offer customers looking to add a spunky element to their home decor. The innovative designs add an artistic touch to the product range, making each product different from the other. The products are practical, while designs aesthetic. This range extends to both furniture and upholstery as well as lighting fixtures and other home decor accessories.

The trend these days is to be different from others and create interiors that have a unique element, and One & Only-Legendary Furniture offers just that.
